Yearbook & Administration Exports
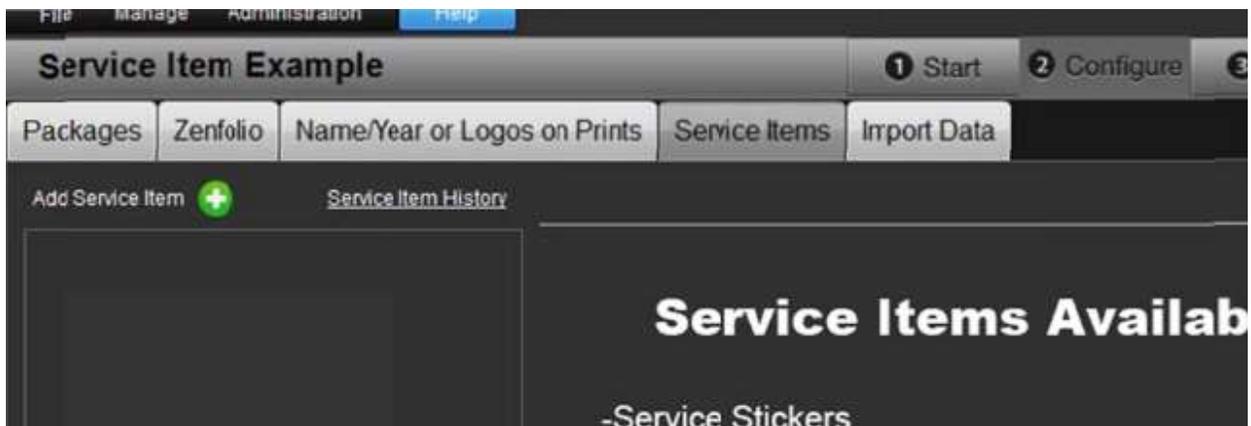

We offer many exports in order to meet your school's needs for yearbook and administration files.

Yearbook Export – The PSPA organization, yearbook Exports, with a few exceptions, are all created following the PSPA 2.0 yearbook specifications.
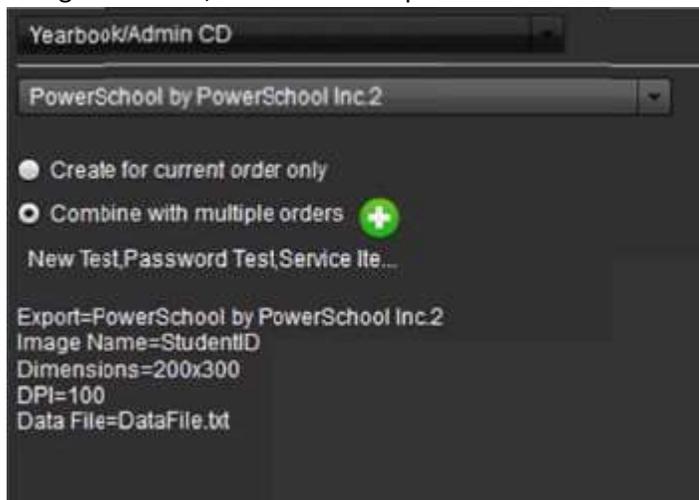

Administration Export- Each software company has its own proprietary format for images to be pulled into their software. Almost all of these rename the image with the student ID number. Accompanying text file formats and images sizes vary significantly. It is important to check with your school to see which export meets their needs. When you select an export in the school software, the software will display the specifications for this export. If there are multiple exports for your school's software (for example, PowerSchool), be sure to double check with the school as to which of the options they require.

Each Export that is generated is $75 and there is a (one time) combine fee if you want to combine multiple orders for a school.

1. Go to the Service Items tab in the software and click on the green button with the white cross next to "Add Service Items".

2. Using the menus, select desired options.

3. Move on to the build stage and enter the images that you would like to add to this export. All images entered and marked as service item pose will appear on the export (This is not always the case on administration exports. When multiple orders are combined and the same student ID is used for multiple service item poses, only the image from the newest order is used. This is because these images are named by student ID and are in one folder.)

List of Exports

Export	ImageName	Dimensions	DPI	DataFile
PSPA Industry Standard (Yearbook)	PSPA Spec	640x800	300	PSPA Spec
[Future Stars] eSIS	StudentID	172x228	300	DataFile.txt
[Future Stars] PLAGENT	Sequential Numbering	600x900	300	index.txt
[Provincial] SOMAC	StudentID	180x200	72	index.txt
ABI (Aries Browser Interface) - by Eagle Software	StudentID	96x120	72	IDLink.txt
Accent by Sagebrush	StudentID	76x76	72	index.txt
Administrators Plus - by Rediker	StudentID	172x228	0	DataFile.txt
Aeries by Eagle New	StudentID	160x200	100	IDLINK.TXT
Albany (Prints Charles Photography)	StudentID	75x96	300	data.txt
Alexandria - by Companion Corporation	StudentID	120x120	0	DataFile.txt
Aspen by X2	StudentID	172x228	72	Data.txt
Balfour (Yearbook)	PSPA Spec	640x800	300	PSPA Spec
BCeSIS large	StudentID	600x800	96	index.txt

BCeSIS medium	StudentID	400x528	96	index.txt
